- Stakeholder Management, Risk Communication, Cross-functional Collaboration, and Regulatory Research.

RELEVANT EXPERIENCE

Administrative & Leasing Consultant | Compliance & Data Management

Londonderry Apartments - January 2025- Present

Compliance & Risk Mitigation

- Execute end-to-end due diligence by performing comprehensive background and credit screenings to evaluate applicant risk profiles and support data-driven decision-making.
- Enforce strict adherence to federal, state, and organizational housing regulations, effectively minimizing legal, financial, and operational risk exposure.
- Identify and investigate documentation discrepancies to detect potential fraud and ensure 100% compliance with established eligibility criteria and regulatory standards.

Data Privacy & Information Governance

- Safeguard sensitive Personally Identifiable Information (PII) and financial records, maintaining strict confidentiality in alignment with data privacy laws and corporate security policies.
- Maintain audit-ready documentation and structured record-keeping systems to ensure seamless internal reviews and successful regulatory audits.
- Manage CRM data integrity by tracking complex pipelines and client interactions, ensuring high visibility and accuracy for executive reporting.

Operational Excellence & Process Optimization

- Optimize administrative workflows and documentation protocols to enhance operational efficiency and strengthen compliance tracking mechanisms.
- Facilitate cross-functional communication between stakeholders, management, and internal teams to ensure consistent policy application and service delivery standards.
- Streamline incident resolution using ticketing systems to log, monitor, and resolve operational requests, improving accountability and response efficiency.

Core Competencies

- Technical Writing & Policy Development.
- Monitored and analyzed security events using SIEM tools (Wazuh)
- Investigated alerts and documented findings for incident reporting and audit visibility
- Performed log analysis and threat detection exercises
- Supported simulated incident response and risk identification activities
- Gained experience aligning security operations with compliance and risk management practices
